THE PRESIDENT'S MESSAGE

00000

We may be quite certain that we are facing the second big adjustment of this depression. When depressions start, we must first adjust our affairs to decreased earnings, poor collections, unemployment and all the long train of difficulties that depressions bring about. Then when things start getting better, we have another set of problems to meet while we slowly climb back in earnings, and expand services and pay rolls to something like a normal position. Both of these adjustments are painful for each and every one of us, and the second is liable to be as painful as the first, even though we are headed in a more favorable direction.

The President has undertaken to show us a way to short-circuit some of the difficulties of this second adjustment through the N.R.A. So far as modern experience is concerned, we are traveling uncharted seas, very much as Columbus did when he set out from Spain. He didn't know where he was going when he started; when he got there, he didn't know where he was; and when he got back, he didn't know where he had been. Yet there is a promise of success in the plan, and we are going to try to adjust ourselves to the spirit of the idea and "Do Our Part" to make it produce the hoped-for results.

We have traveled together through the first adjustment period very creditably indeed. All of us have made sacrifices and found disappointments, but we have met them with patient and loyal cooperation. As we look back, we can see clearly that our situation might have been even more difficult.

Now we are asked to face this second adjustment with the same faithful loyalty and patience. Our troubles will not be passed until finally we work ourselves back to somewhere near normal conditions. As these problems arise, let us iron them out together with the same spirit of mutual helpfulness that has served us so well in the past.

WOMEN STAGE ANNUAL PARTY

If you think for one minute that the Women's Committee picnic which was held July 21 at the Round Table Club on Village Creek wasn't a wow, well, Charley, you just should have been there!

Jules Naquin and Fred Davis, as Eddie Cantor and Al Jolson, furnished some more good entertainment for the party.
